## POLICE MATTERS.

Firearms for the Metropolicen Force-Mayor Havemeyer's Letter to Governor Dix-The Police Commissioners' Requisition for Arms.

Commissioner Durges yesterday forwarded to Governor Dix the requisition for arms for the police, signed by the Mayor, and the other documents relating to the question. General Duryee, together with Commissioner Russell, has worked ssiduously to accomplish this movement, and his success has given much satisfaction to the Board. Mayor Havemeyer has been very much interested in the matter, and gave the Commissioners all the assistance in his power. The following are some of the reasons which induced General Duryce to undertake this task of forming
A POLICE BRIGADE.

the reasons which induced General Duryee to undertake this task of forming

A POLICE ERIGADE.

No city or municipality is secure against the occurrence of circumstances requiring a resort to the military power to suppress violent proceedings. The law recognizes and provides for such exigencies even in the rural districts of the State. In the metropolitan district there are likely to be frequent occasions for resort to the military force. The process of notifying and mustering the national guards is much too slow for such exigencies, and is calculated to increase the excitement and panic incrient to such occasions and to aggravate the danger of collisions. Calling out the military force is a lied with great expense. It is a serious interruption to the business avocations of the members of the corps. The citizen solvier ought to be relieved, so far as consistent with the public welfare, from the hard duty of using frearms upon a citizen mob. These and other considerations combine in support of the suggestion that a brigade of the police force be organized in military form and instructed in the manual of arms and in evolutions adapted to service in cities, this brigade to be used as a military force only under such grave circumstances as now authorize the Board of Police to call out the military of the district in aid of the civil authority. Such a force, well drilled, accustomed to act together, at all times ready for duty, capable of being called out without adding to the public excitement and without the knowledge of the hostile parties, would, it is believed, be able te defeat or arrest in their inception violent attempts to disturb the peace of the city. It is only necessary to refer to the records of the drait riots of July, 1863. If a police brigade had been organized at that time, and fully up to the drait riots of July, 1863. If a police brigade had been organized at that time, and fully up to the drait riots of July, 1863. If a police brigade had been organized at that time, and fully up to the drait and

## REAL ESTATE AFFAIRS.

Another grand successful sale in Westchester county may be added to this week's operations in the record of real estate transactions, being a continuation of the sale of the Palmer estate, near Williamsbridge, held on Thursday, by Jere. Johnson, Jr. The first auction took place on the premises July 1, and had to be stopped on account of the darkness, the business ranging far into the night. Thursday's sale realized considerably higher prices, and there was a positive rush of purchasers for this land. It is a somewhat singular coincidence that both sales were attended with rain; yet, notwithstanding this apparent drawrain; yet, notwithstanding this apparent draw-back, faily one thousand persons were present, among them a large number of city dealers in real estate. The competition was more spirited than at any previous sale of the season. Seventy-two acres were disposed of at an average of \$920 per acre, a less average than at the previous sale, a large portion being meadow land, the better property, however, selling at higher figures than at the first sale. The homestead and 5 58-100 acres of ground were knocked down at \$10,100. The entire amount realized footed up \$65,147 45. Annexed will be found the details:—

WALL STREET. PRIDAY, July 18-G.P. M. On 'Change to-day cotton was firmer for "spot" and steady for futures. Plour was steady. Wheat was in demand and firmer and corn was easy.

THE FORRIGN MARKET.

Late London advices report the following quotations? Consols for money, 92%; do. for account, 92%; fve-twenty bonds of 1868, old, 93%; five-twenty-bonds of 1867, 98%; ten-forty bends, 90% a 90%; new fives, 89%; Eric Railway shares, 46% a 45%; Illinois Central Railway shares, 82; new French loan, 6% per cent premium; consols and American securities duil. The feature of the day in London was the speculation in Erie, the price of which opened strong at 46% a 46%, but reacted later in the day with the depressing close above indicated. The event was not without result in its weakening influences on this market, as shown elsewhere in the attempt made to sustain the price. The speculative disposition with reference to Erie abroad seems to have assumed a new and definite shape, sympathizing, undoubtedly, with the feeling on this side of the Atlantic. In Paris rentes declined to 56.20. The rate of discount for three months' bills in open market is reported at % per cent below the bank

there are no present evidences of a change of front in the form of a fixed reaction. The market may be described as strong, with a disposition to bring forward other stocks than those which have heretofore chiefly occupied attention as leaders. Wabash, for instance, may to-morrow be put in the place of Western Union; Lake Shore may for the moment surrender its position to Can-ton, white Northwest and Union Pacific may quickly follow as tenders to other and more powerful speculative engines. At best, however, a Summer Saturday offers too many out of town inducements to provoke much speculation, and it will not be strange if the market should prove more quiet than to-day. A good miscelneous business was done, the features of which were Northwestern, Western Union, Pacific Mail, Lake Shore and Wabash. Western Union opened at 90%, but fell off to 89% a 89%, occas touching 90, with closing figures at 89%. Erie responded to early London figures at 59%, but weakened to 58%, closing at 58%. New York Cenweakened to 58%, closing at 58%. New York Central moved about % per cent. Pacific Mail opened at 38% and went off to 37%. Wabash was unusually firm between 71% a 71%. Lake Shore was like se very stiff, going from 93% to 94%, recooling, however, just at the close to 94. Union actific advanced from 28% to 28%. Only and Misselfic advanced from 28% to 28%. North-western preferred showed a clean gain of 1% per cent. St. Paul was steady at 53 ½ a 53 ½. C., C. and l. C. advanced from 32 ½ to 33 and sold down to ½ a %, but reacted to the opening price. Hanniba and St. Joseph was steady at 41. Delaware, Lackswanns and Western sold at 101% a 101% a 101% a 101%. Hariem at 128% and Panama at 111%, being a slight advance.

PANIC IN A JERSEY CHURCH.

About ten o'clock on Thursday night, while 150 children were participating in an allegorical per-formance entitled, "Inc Great Republic," on a stage in the Presbyterian church, Paterson street, Jerin the Presbyterian charch, Paterson street, sersey City Heights, the stage broke down, and a
scene of utter confusion followed. Many of the
spectators wildly rushed forward to rescue their
children, while others made for the door. In the
confusion several persons were crushed and
wounded. All the children escaped serious injury,
and for this they have to thank Providence alone.
The platform was not safe, too much carelessness
having entered into its erection.
